DETAILED ACTION

1. Applicants' Response to Office Action, received 27 December 2007, is acknowledged.

Claim 13 has been amended.

2. Claims 1-23 are pending. Claims 1-12 and 16-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention.

3. Claims 13-15, drawn to compound 237, i.e., 2-(cyclopropanecarbonyl-amino)-4,5,6,7-tetrahydro-benzo[b]thiophene-3-carboxylic acid amide are under consideration.

Rejections Withdrawn

4. The rejection of claims 14 and 15 under 35 U.S.C. 112, second paragraph, as being indefinite for "pharmaceutical" composition, is withdrawn.

Rejections Maintained

5. The rejection of claims 13-15 under 35 U.S.C. 112, first paragraph, scope of enablement for the extremely broad scope of inhibitors of any/all serine/threonine kinases of any/all other species of mycobacteria, is maintained.

Applicants argue that the amendment of claim 13 obviates the rejection because the claims are now drawn to compounds which are inhibitors of mycobacterial serine/threonine protein kinase G (PknG).

The examiner has considered applicants' argument, but does not find it persuasive because the claims, as newly amended, are not drawn to inhibitors of mycobacterial serine/threonine protein kinase G (PknG), but to a mycobacterial serine/threonine protein kinase inhibitor G compound.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1645

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. As newly amended, claims 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Newly amended claim 13 now recites: "A mycobacterial serine/threonine protein kinase inhibitor G (PknG) compound have the general formula (I):".

It is unclear if the claim is drawn to a compound which is an inhibitor of protein kinase G, or a compound which is a 'protein kinase inhibitor G". If it is the latter, the examiner requires further explanation on what is a "protein kinase inhibitor G".

Conclusion

8. No claims are allowed.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Art Unit: 1645

10. This application contains claims 1-12 and 16-23 drawn to a nonelected invention. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
